CALL FOR PAPERS & INFORMATION

Christology was the central doctrine articulated by the early councils, and it remains the subject of vigorous theological investigation today. This first annual Los Angeles Theology Conference seeks to make a positive contribution to contemporary dogmatics in intentional engagement with the Christian tradition.

A panel of accomplished plenary speakers will survey the field and seek to articulate the sources, norms, and criteria for constructive theological work. Those with completed doctorate degrees in the field of systematic theology are also invited to submit paper proposals on this year's theme.
